Growth & Marketing: SEO, AEO, market research, competitor analysis, go-to-market, partnership outreach, lead generation
Soft Skills: Business administration, Team coordination, Community engagement, Event organization, Social media outreach

WORK EXPERIENCE

Yuno | Founder | yuno.himanshufr.me 2026 - Present
- Founded and run a web studio that has delivered 100+ English and Chinese websites for exporters, owning the full cycle from strategy, design and build to search and ongoing care.
- Own customer acquisition and sales: built automated outreach channels to find exporters, and generated full demo references to win them as paying clients.
- Use AI behind the scenes to build internal workflows, analyze results, and speed up experimentation.
- Manage pricing, costs and profitability (P&L) of the business, and use SEO content so exporters' buyers can find them.

MightyAI | AI Applications and Product Management Intern | Shenzhen May 2026 - June 2026
- Coordinated multiple AI and robotics projects, tracking milestones, deliverables, timelines, and risks to ensure on-time execution
- Conducted research on emerging AI technologies, foundation models, robotics frameworks, and industry trends to inform product strategy.
- Supported testing, validation, and quality assurance of AI features by documenting bugs, edge cases, and user feedback
- Developed workflows for integrating LLMs, automation tools, and AI services into internal products and operational processes.
- Identified opportunities to automate repetitive workflows using AI-powered solutions, improving team productivity and operational efficiency.

Mortar AI | Operations Assistant Nov 2025 - Feb 2026
- Supported day-to-day operations of the startup, helping keep workflows and team coordination running smoothly
- Assisted cross-functional teams by tracking tasks and project progress to meet deadlines
- Contributed to operational improvements that helped the startup become more efficient and scale its activities
- Supported sales operations and process optimization during a growth phase that reached a $50M valuation
- Helped with HR functions including onboarding, team communication, and performance tracking

University Leadership

School of Management and Economics, CUHK | Overseas Market Development and Partnerships Outreach Intern Mar 2026 - Present
- Developed and executed outreach strategies to engage prospective international students and partner institutions, supporting the university's overseas market growth
- Created and managed social media content to promote the university's programs and enhance brand visibility among overseas audiences
- Assisted in drafting promotional materials and correspondence tailored to diverse cultural and institutional audiences
- Coordinated communication with partner schools and universities to plan and organize joint events, exchanges, and collaborative initiatives

CUHK-Shenzhen | Student Ambassador and ISA Academic and Career Support Staff Sep 2025 - Present
- Engaged prospective students through campus tours and information sessions, and represented the university at educational fairs and workshops.
- Organized events that connected students with industry professionals and fostered community engagement.
- Developed social media outreach strategies to increase awareness; supported student-led initiatives and career-planning resources.
- Collaborated with faculty to enhance academic support services.

Muse College International Student Association | Community Representative Aug 2026 - Present
- Mentor and community lead for incoming international students as a Year 2 student: led country-specific communities and built a welcoming support network before their arrival.
- Mentored groups during International Student Orientation Day, guiding students through their transition to CUHK-Shenzhen.
- Supported incoming Year 1 students through the Buddy Program with practical guidance on campus life, university resources, and day-to-day challenges.

PROJECTS

Pilly | pillybot.app
- An AI health companion built for elders and dementia patients, keeping up with medications, routines, and the small things that matter most. 200+ families in early access.

Aimpact | aimpact.himanshufr.me
- A free task board where nonprofits post small jobs, such as web pages, marketing copy and spreadsheet clean-up, and AI agents or people volunteer to do them, with every result reviewed by a human before delivery.

Slipstream | goodmaxgram.vercel.app
- Built an AI system that flags emotionally significant F1 team-radio moments for race engineers, cross-referencing tone with live telemetry across 1,300+ clips; won Trackshift Paytm Hackathon with over 5,000 participants.

CERTIFICATIONS & ACHIEVEMENTS

- **NVIDIA Inception** (2026) - NVIDIA
- **McKinsey Accelerate 2026** (Ongoing) - McKinsey
